

KINTEVO Capability Statement

KINTEVO is a federal and mission-driven IT modernization consulting firm led by senior IT executive Linzie Oliver, a service-disabled veteran with extensive experience guiding large federal portfolios through modernization, governance, and enterprise transformation. KINTEVO provides strategy, architecture, and delivery oversight for agencies modernizing High Value Assets (HVAs), legacy platforms, cloud environments, and data systems.

Core Competencies

- **IT Modernization & Transformation** – Modernization roadmaps, legacy remediation, and phased implementation strategies aligned with mission and oversight requirements.
- **Enterprise Architecture (EA)** – Business, data, application, and technology architecture integration, target-state design, and governance.
- **Cloud Strategy & Migration Oversight** – Readiness assessments, hybrid/multi-cloud strategy, secure migration planning, and governance.
- **Data & Analytics Modernization** – EDW/EVV modernization, governance frameworks, analytics enablement, and data strategy.
- **CIO Advisory & Policy Leadership** – Governance boards, policy development, risk management, and decision-support for executives.
- **Program & Portfolio Management** – Leadership for \$40M–\$700M portfolios, CPIC support, and vendor coordination.

Differentiators

- **Senior Federal IT Leadership** – Experience as GS-15 Director of IT and Acting Deputy CIO provides insight into governance, budget, and operational realities.
- **High Value Asset Expertise** – Led enterprise HVA modernization initiatives for complex federal environments.
- **Data Transformation** – Hands-on leadership of multi-year enterprise data modernization efforts.
- **Clear, Executable Roadmaps** – Guidance aligned with policy, compliance, and delivery capacity.
- **Regulated Environment Experience** – Deep knowledge of federal governance, oversight, audit, and security frameworks.

Past Performance

HHS/OMHA – Director, IT Division

Oversaw modernization of ECAPE, data platforms, cybersecurity, and application environments. Led CI/CD adoption, governance boards, and portfolio risk management.

USACE – Acting Deputy CIO & Chief of Governance & Architecture

Led enterprise architecture, governance, and Business System Modernization for all HVAs. Supported a \$700M IT portfolio and chaired major enterprise oversight boards.

OPM – Cloud & Digital Modernization

Delivered modernization strategy, cloud adoption planning, and portfolio alignment across mission systems.

CFTC – Financial Auditing Modernization

Implemented TeamMate AM enterprise auditing platform, aligning regulatory, business, and technical requirements.

USDA – Systems Engineering

Supported modernization of enterprise HR and financial systems with architectural oversight.

Montgomery County, Ohio – Case/Records Modernization

Implemented case management, digital records, e-filing, and online public access systems.
